[Unifrog – The Complete Destinations Platform](#)

Dear Parent/Carer,

In keeping with our commitment to provide students with outstanding careers guidance and tailored support when choosing their next steps upon leaving school, we will now be using Unifrog; an award-winning, online careers platform. All students in years 7 - 13 now have access to this excellent website.

Unifrog brings into one place every undergraduate university course, apprenticeship, and college course in the UK, as well as other opportunities, such as School Leaver Programmes, MOOCs and every college at Oxford and Cambridge. This makes it easy for students to compare and choose the best opportunity for them. They can also explore exciting opportunities further afield by looking at English taught undergraduate programmes available worldwide. The Careers Library contains up-to-date labour market information for over 1300 different careers, with details about the required skills and qualifications for each one. The Subjects Library gives advice about what qualifications your child will need to study a subject at university.

Additionally, the platform helps students successfully apply for these opportunities by using Unifrog to write their applications, such as personal statements and CVs, and guiding them through the process, allowing teachers to give live feedback. They can record their key skills and achievements, and build up an impressive portfolio over time.

Over the past three weeks students have been receiving login details, via email, directly from Unifrog and have received a short tutor presentation about the platform. They can now login using their school email addresses from any computer, tablet or smartphone. I would encourage you to use the platform with your child so you can support them through the process of deciding their next steps, particularly students in years 9 and 11 who are contemplating subject options for next year.

During the course of the year there will be frequent Unifrog announcements via the student bulletin informing students of upcoming events, webinars and account next steps. This week all students were encouraged to complete the Interests Profile and Personality Profile in order to generate careers associated with interests and personality types. After Christmas I will be working with students on developing competency skills and logging careers interactions.

If you would like to see an overview of the platform click on either of the videos below. Parent login details will be announced after Christmas.
